

WWEM 2014 visitors will be able to claim Continuing Professional Development (CPD) time for the event's Conferences, Forums and Workshops. WWEM organiser Marcus Pattison says: "This is great news for the event because it provides formal recognition of the value of the many learning experiences at WWEM 2014 and provides delegates with reassurance that their visit will be worthwhile."

WWEM 2014, the international Water, Wastewater and Environmental Monitoring conference and exhibition will take place at the Telford International Centre 5-6th November. CPD Certification will be applicable to the following components of the event:

1. Conference: 'Regulation Updates for Process Operators'
2. Conference: 'Laboratory Techniques and Quality Procedures'
3. Seminar: 'The application of chromatography-mass spectrometry to environmental water analysis'
4. The Flow Forum
5. The SMARTWater Forum
6. Over 80 Workshops on specialist environmental monitoring themes

WWEM 2014 (www.wwem.uk.com) will provide delegates with the latest information on the techniques, technologies, methods, standards and regulatory requirements that relate to monitoring both on-site and in the laboratory, covering sampling, field analysis, gas detection and continuous water and wastewater applications.

Pre-registered visitors will have free access to the Workshops, a Flow Demonstration area, the SMART Water Forum, the Flow Forum and the WWEM exhibition, featuring over 130 stands. Parking and refreshments are also free. The Conference day-delegate rate is £55.
